

Module 1 : Welcome Section

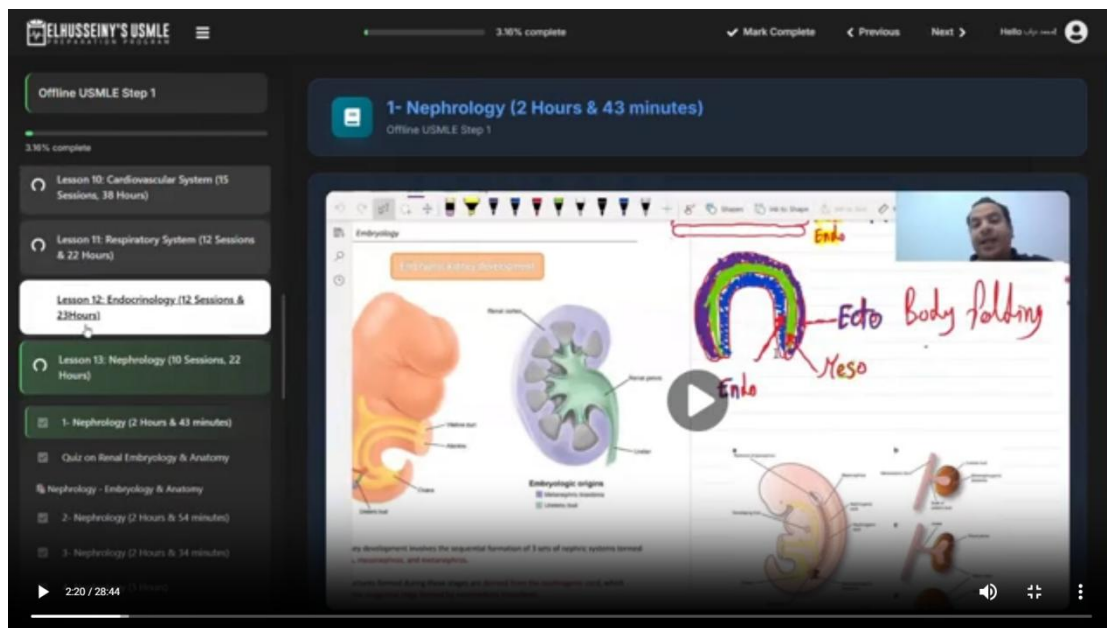

Feature	Description
Question Bank Usage	Displays the total number of questions, used questions, unused questions, and the overall question bank usage percentage.
Your Score	Displays the total number of correct, incorrect, and omitted questions.
Total Correct	Displays the percentage of correctly answered questions out of all attempted questions.
Total Used	Displays the percentage of attempted questions out of the total question bank.
Course Progress	Displays the student's overall progress percentage in the selected course based on completed content.

Module 2 : Course Section

Feature	Description
My Courses	Displays all subscribed subjects.
Subject Card	Displays subject name, cover, subscription status, and progress.
Continue Studying	Displays subject name, cover, subscription status, and progress.
View Subject Details	Opens the subject's chapters, lessons, videos, and question bank.
Subscribe to New Subject	Allows subscribing to additional subjects.

Sentivra - Mohamed Diab Req.

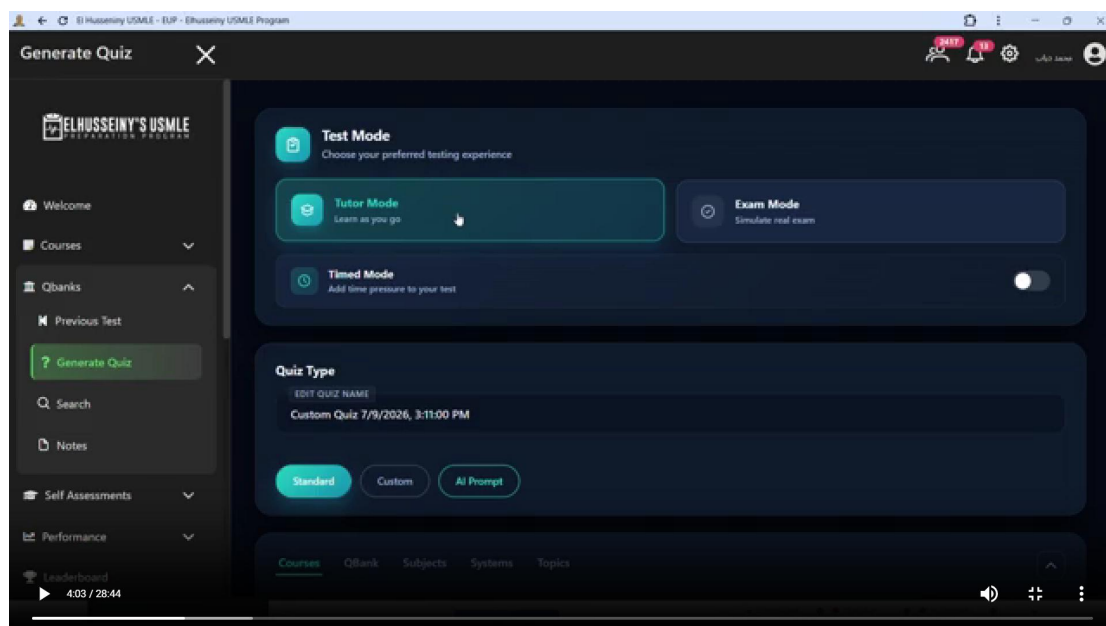

Feature	Description
Chapter List	Displays all chapters available in the selected subject.
Expand / Collapse Chapters	Allows expanding or collapsing each chapter to display its lessons.
Lesson List	Displays all lessons within the selected chapter.
Expand / Collapse Lessons	Allows expanding or collapsing each lesson to display its sections.
Section List	Displays all sections within the selected lesson.
Video Player	Plays the selected lesson or section video.
Progress Indicator	Displays the completion percentage for the selected subject, chapter, and lesson.
Mark as Completed	Allows the student to mark a chapter, lesson, or section as completed.
Video Content	Displays the topics and concepts covered in the selected video.

S e n t i v r a - Mohamed Diab Req.

Feature	Description
Navigation Controls	Allows moving to the previous or next lesson or section.
Course Outline	Displays the complete hierarchy (Chapters → Lessons → Sections).
Search Content	Allows searching for chapters, lessons, or sections within the subject.

Module 3 : Qbank Section

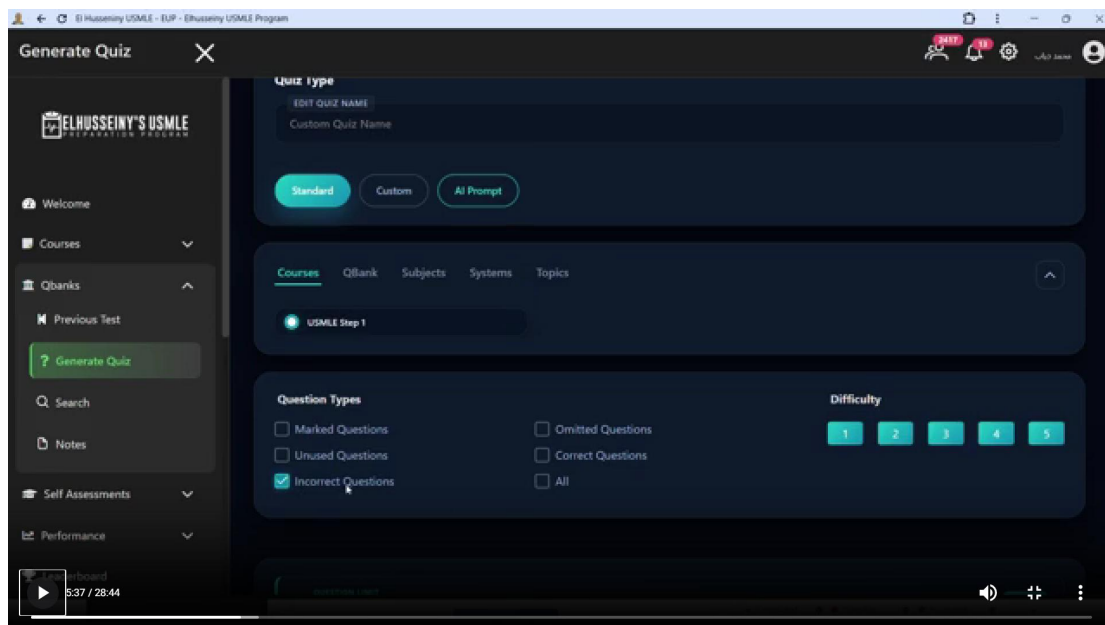

Feature	Description
Standard Quiz	Generates a quiz using the standard question selection method based on the student's chosen filters.
Custom Quiz	Allows the student to manually customize the quiz by selecting chapters, lessons, sections, question sources, question count, and difficulty level.
AI Prompt Quiz	Generates a personalized quiz using AI based on the student's prompt and selected criteria.

AI Prompt

Sentivra - Mohamed Diab Req.

Feature	Description
Question Scope	Select questions from specific chapters, lessons, or sections.
Question Source	Select questions from the platform bank, external books, previous exams, or ministry sample exams.
Question Status	Filter questions by Unused, Used, Marked, Incorrect, Omitted, or All Questions.
Community Incorrect Questions	Generates questions that have the highest incorrect answer rate among all students on the platform.

Feature	Description
Courses	Allows the student to select the subscribed subject/course from which the quiz will be generated.
Question Bank	Allows the student to select the question source, such as platform question banks, external books, previous official exams, or ministry sample exams.
Chapters	Allows the student to select one or more chapters within the selected question bank.
Lessons	Allows the student to select one or more lessons within

S e n t i v r a - Mohamed Diab Req.

Feature	Description
	the selected chapter(s).
Topics	Allows the student to select one or more topics (sections) within the selected lesson(s).

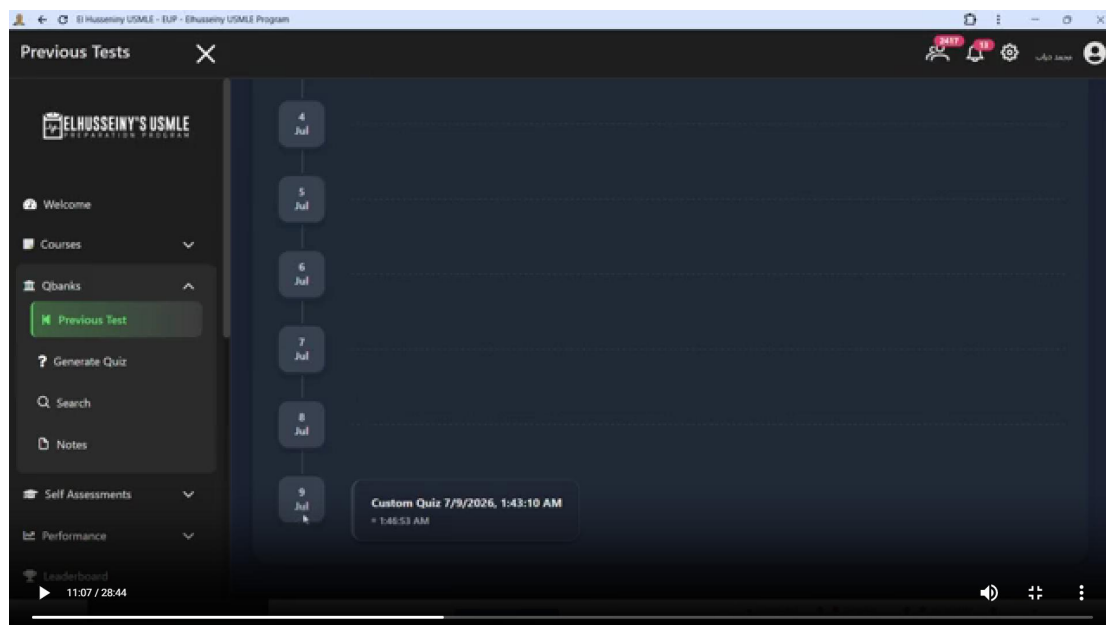

Feature	Description
Marked Questions	Includes only questions marked by the student for later review.
Unused Questions	Includes only questions that have not been attempted by the student.
Correct Questions	Includes only questions previously answered correctly by the student.
Incorrect Questions	Includes only questions previously answered incorrectly by the student.
Omitted Questions	Includes only questions skipped by the student during previous quizzes.
All Questions	Includes all available questions regardless of their previous status.

deficulty	Description
A+	Questions with an incorrect answer rate of 90% or higher among all students on the platform (Very Hard).
A	Questions with an incorrect answer rate between 85% and 90% (Hard).
B	Questions with an incorrect answer rate between 80% and 85% (Medium).
C	Questions with an incorrect answer rate between 70% and 80% (Easy).
D	Questions with an incorrect answer rate below 70% (Very

S e n t i v r a - Mohamed Diab Req.

deficulty	Description
Easy).	

Feature	Description
Question Count	Allows the student to select the number of questions for the quiz. The maximum number of questions is 50 . The value can be adjusted using increment/decrement controls or entered manually.
Generate Quiz	Generates a quiz based on all selected criteria, including course, question bank, chapters, lessons, topics, question type, difficulty level, quiz mode, and timer settings.

Feature	Description
Quiz Timeline	Displays all previously generated quizzes in chronological order.
Quiz Card	Displays the quiz name, date, and time.
View Quiz Review	Opens the selected quiz to review all questions, correct answers, explanations, and the student's answers.

Quiz Details in previous tests

S e n t i v r a - Mohamed Diab Req.

Feature	Description
Saved Tests Summary	Displays the total number of saved quizzes.
Completed Tests	Displays the total number of completed quizzes.
Suspended Tests	Displays the total number of suspended quizzes.
Show Entries	Allows the student to select how many quizzes are displayed per page.
Status Filter	Filters quizzes by status (All, Completed, Suspended).
Search Quiz	Searches quizzes by name.
Quiz Table	Displays all saved quizzes with their details.
Pagination	Navigates between quiz history pages.

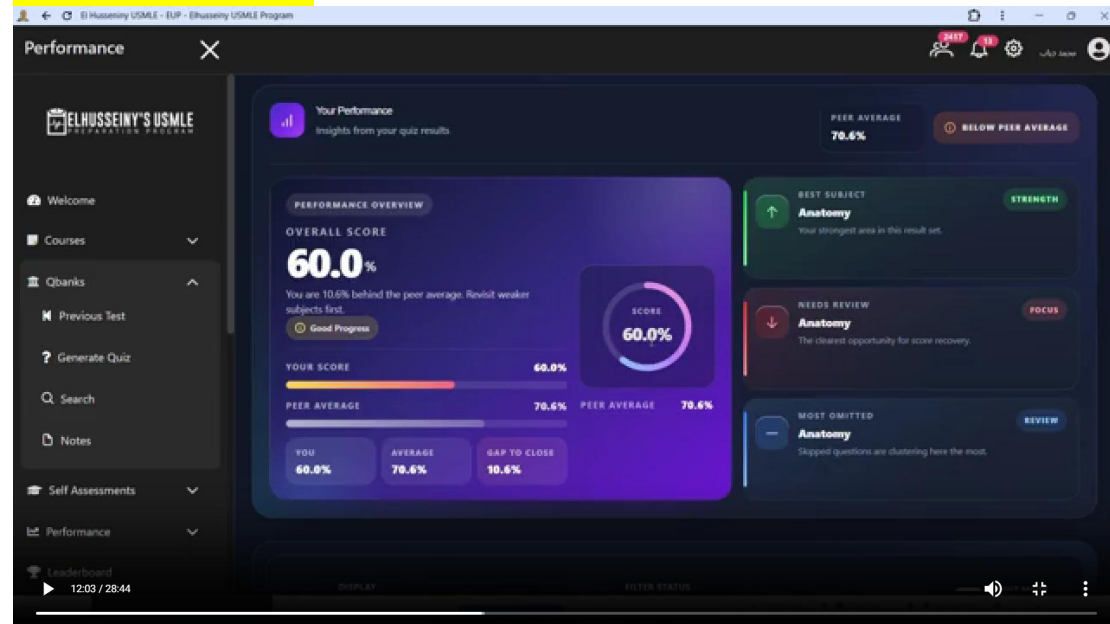

Table

Column	Description
Quiz Name	Name of the quiz.
Score	Student's score in the quiz.
Date	Quiz creation date and time.
Mode	Displays the quiz mode (Tutor Mode / Exam Mode).
Status	Displays the quiz status (Completed / Suspended).
Subjects	Displays the subject associated with the quiz.
Questions	Displays the total number of questions in the quiz.
Actions	Provides quick actions for the selected quiz.

Actions

Feature	Description
View Results	Opens the quiz review page, including questions, student's answers, correct answers, explanations, and video links.
Resume Quiz	Continues a suspended quiz from the last unanswered question.
Rename Quiz	Allows the student to rename the quiz for easier identification.
Delete Quiz	Removes the quiz from the student's history.

Test Result View

Feature	Description
Overall Score	Displays the student's final score as a percentage.
Performance Overview	Provides a summary of the student's performance in the completed quiz.
Score Comparison	Compares the student's score with the platform average.
Performance Chart	Displays the student's score using a circular progress chart.
Student Score	Displays the student's final percentage.
Platform Average	Displays the average score of all students who attempted the same quiz.
Performance Gap	Displays the percentage difference between the student's score and the platform average.

Performance Analysis

Feature	Description
Best Subject	Identifies the subject, chapter, lesson, or topic with

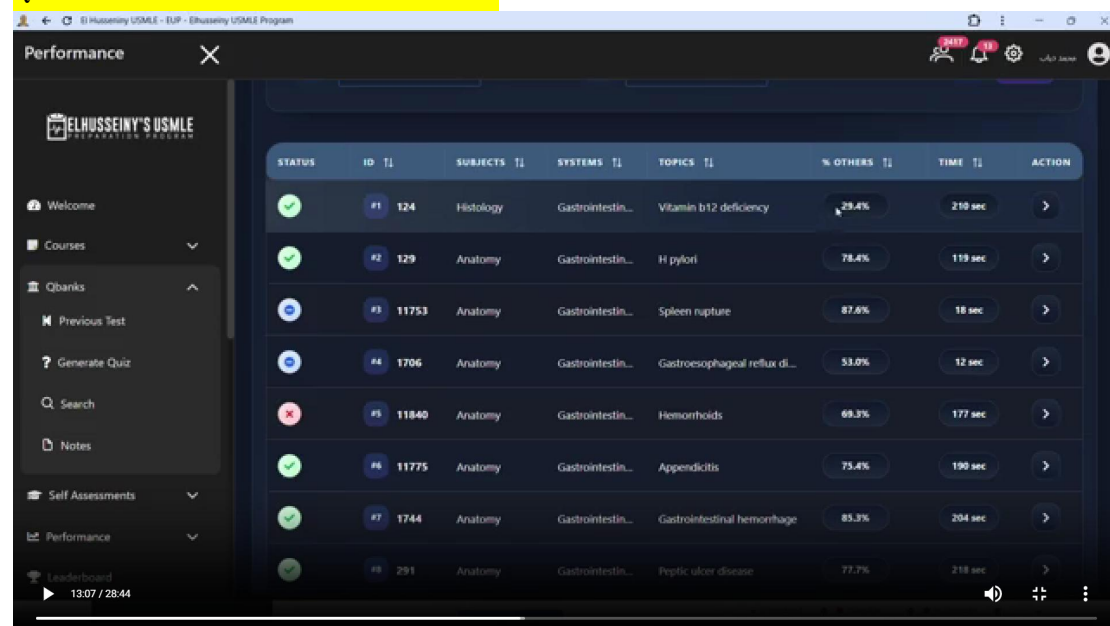

S e n t i v r a - Mohamed Diab Req.

Feature	Description
	the highest performance.
Needs Improvement	Highlights the weakest subject, chapter, lesson, or topic requiring additional practice.
Most Omitted	Displays the subject, chapter, lesson, or topic with the highest number of skipped questions.

Performance Status

Feature	Description
Excellent	Student's performance is significantly above the platform average.
Good Progress	Student's performance is close to the platform average.
Needs Improvement	Student's performance is below the platform average and requires additional practice.

Question Performance Table

STATUS	ID	SUBJECTS	SYSTEMS	TOPICS	% OTHERS	TIME	ACTION
✓	#1 124	Histology	Gastrointest...	Vitamin b12 deficiency	29.4%	210 sec	>

Feature	Description
Question Status	Displays whether the student's answer was Correct , Incorrect , or Omitted using status icons.
Question ID	Displays the unique identifier of the question.
Subject	Displays the subject to which the question belongs.
Chapter	Displays the chapter containing the question.
Topic	Displays the lesson/topic associated with the question.

S e n t i v r a - Mohamed Diab Req.

Feature	Description
Success Rate	Displays the percentage of students who answered the question correctly across the platform.
Time Spent	Displays the amount of time the student spent answering the question.
View Details	Opens the detailed question review, including the student's answer, the correct answer, explanation, AI explanation, and the related video timestamp.

Status Indicators

Status	Description
Correct	The student answered the question correctly.
Incorrect	The student answered the question incorrectly.
Omitted	The student skipped the question without submitting an answer.

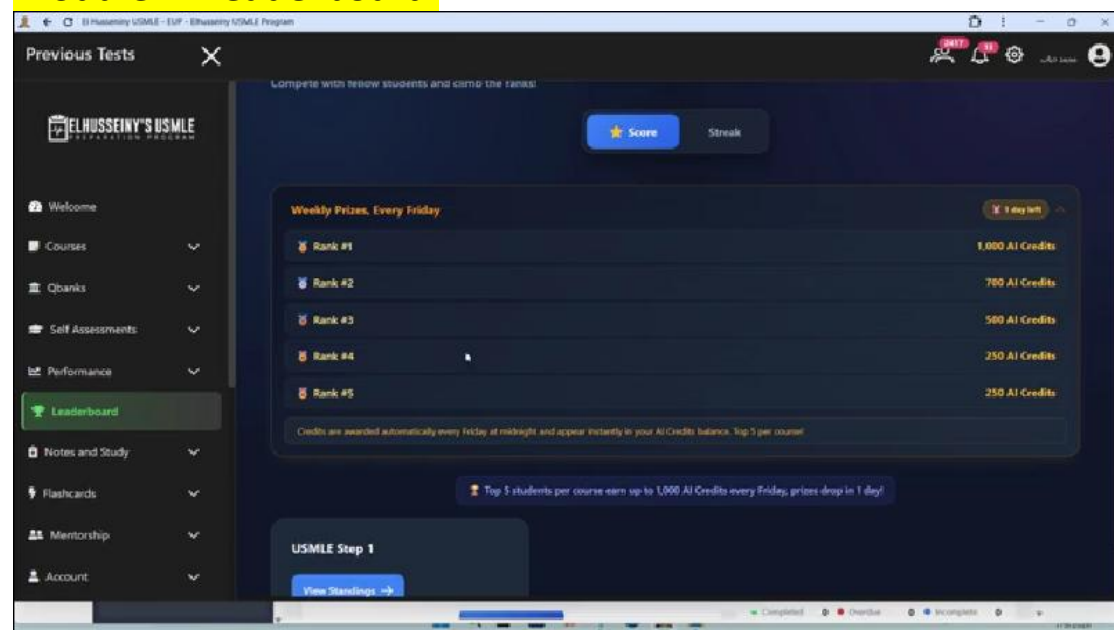

Feature	Description
Performance Overview	Displays overall performance using a circular chart showing omitted and incorrect questions.
Subjects Performance Table	Shows total questions, correct, incorrect, and omitted answers per subject (e.g., Math, Physics, Chemistry).

S e n t i v r a - Mohamed Diab Req.

Feature	Description
Expandable Subjects	Arrow next to each subject expands to list all exams taken in that subject with detailed results.
Chapters / Units Table	Shows performance statistics per chapter or unit within each subject.
Expandable Chapters	Arrow next to each chapter expands to show sub-topics and individual exam results.

#7	Joseph Wisa	3	92	93.5%	181

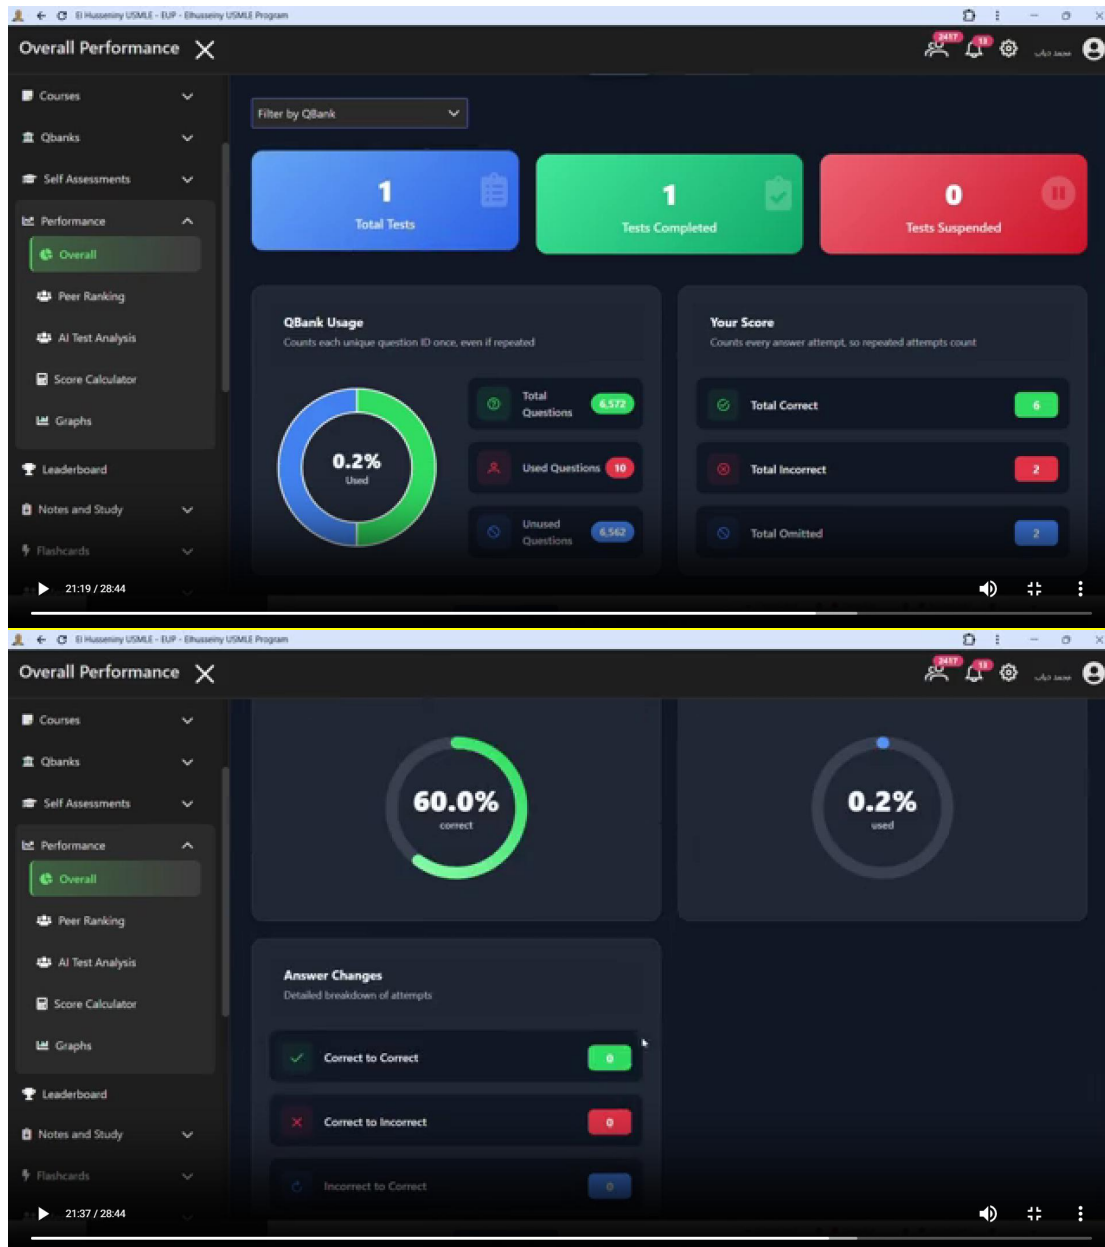

20:58 / 28:44

S e n t i v r a - Mohamed Diab Req.

#	Feature	Description
1	Weekly Leaderboard (Honor Board)	Displays the top 5 students of the week on the honor board with medals and prizes.
2	Weekly Reset	The leaderboard resets automatically every Friday.
3	Reward System	Top 5 students receive his rank
4	Full Students Ranking Table	A detailed table showing all students' rankings on the platform (not just top 5).
5	Ranking Criteria	Student ranking is primarily based on Smart Score .
6	Smart Score	Advanced score calculated as follows: Smart Score = (Accuracy × 60%) + (Total Questions Solved × 40%)
7	Accuracy	Percentage of correct answers calculated by: (Correct Answers / Answered Questions) × 100
8	Table Columns	The table includes the following columns: • Rank • Student Name • Quizzes Taken • Questions Solved • Accuracy % • Smart Score
9	Student Position	Allows every student (even those not in top 5) to see their exact position among all platform users.
10	Motivation & Competition	Encourages students to improve their Smart Score to climb the ranking and appear on the weekly honor board.

Module 5: Performance

Sentivra - Mohamed Diab Req.

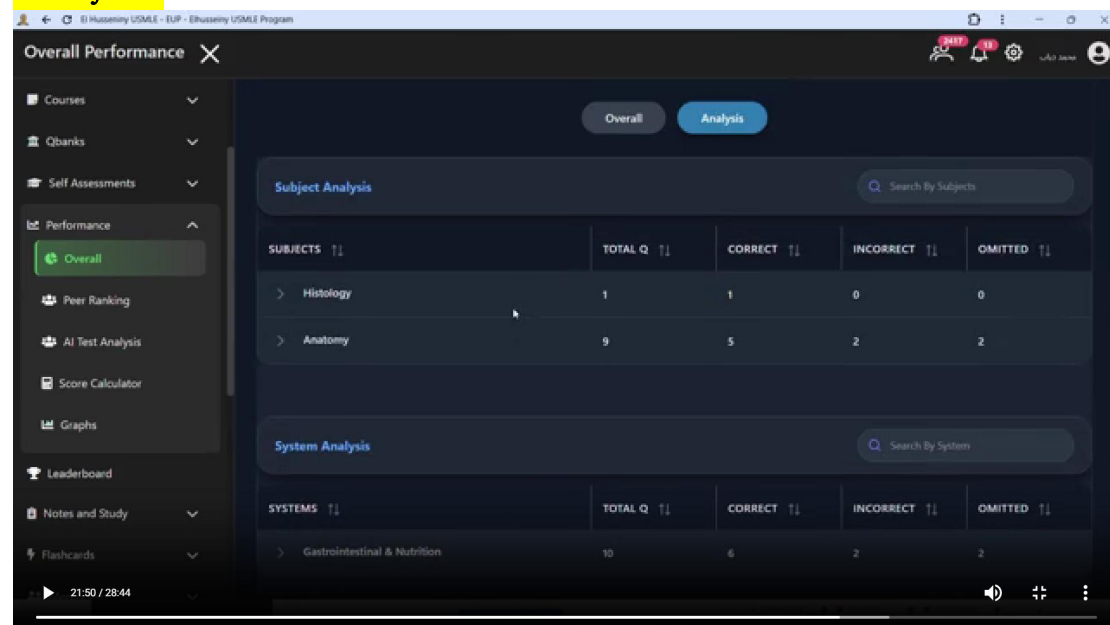

#	Feature	Description
1	Overall Performance Summary	Displays key metrics: Total Tests, Tests Completed, and Tests Suspended.
2	Total Tests	Shows the total number of tests taken by the student.
3	Tests Completed	Shows the number of tests fully completed.
4	Tests Suspended	Shows the number of tests that were started but not completed.

S e n t i v r a - Mohamed Diab Req.

#	Feature	Description
5	QBank Usage	Donut chart showing the percentage of questions used from the question bank (e.g., 0.2% Used).
6	QBank Statistics	Detailed breakdown: Total Questions, Used Questions, Unused Questions.
7	Your Score Section	Shows overall score with: Total Correct, Total Incorrect, and Total Omitted.
8	Answer Changes Analysis	Tracks how the student changed their answers during tests.
9	Answer Changes Breakdown	Shows two categories: • Correct to Incorrect • Incorrect to Correct
10	Performance Insight	Helps students understand their answer behavior and accuracy stability.

Analysis

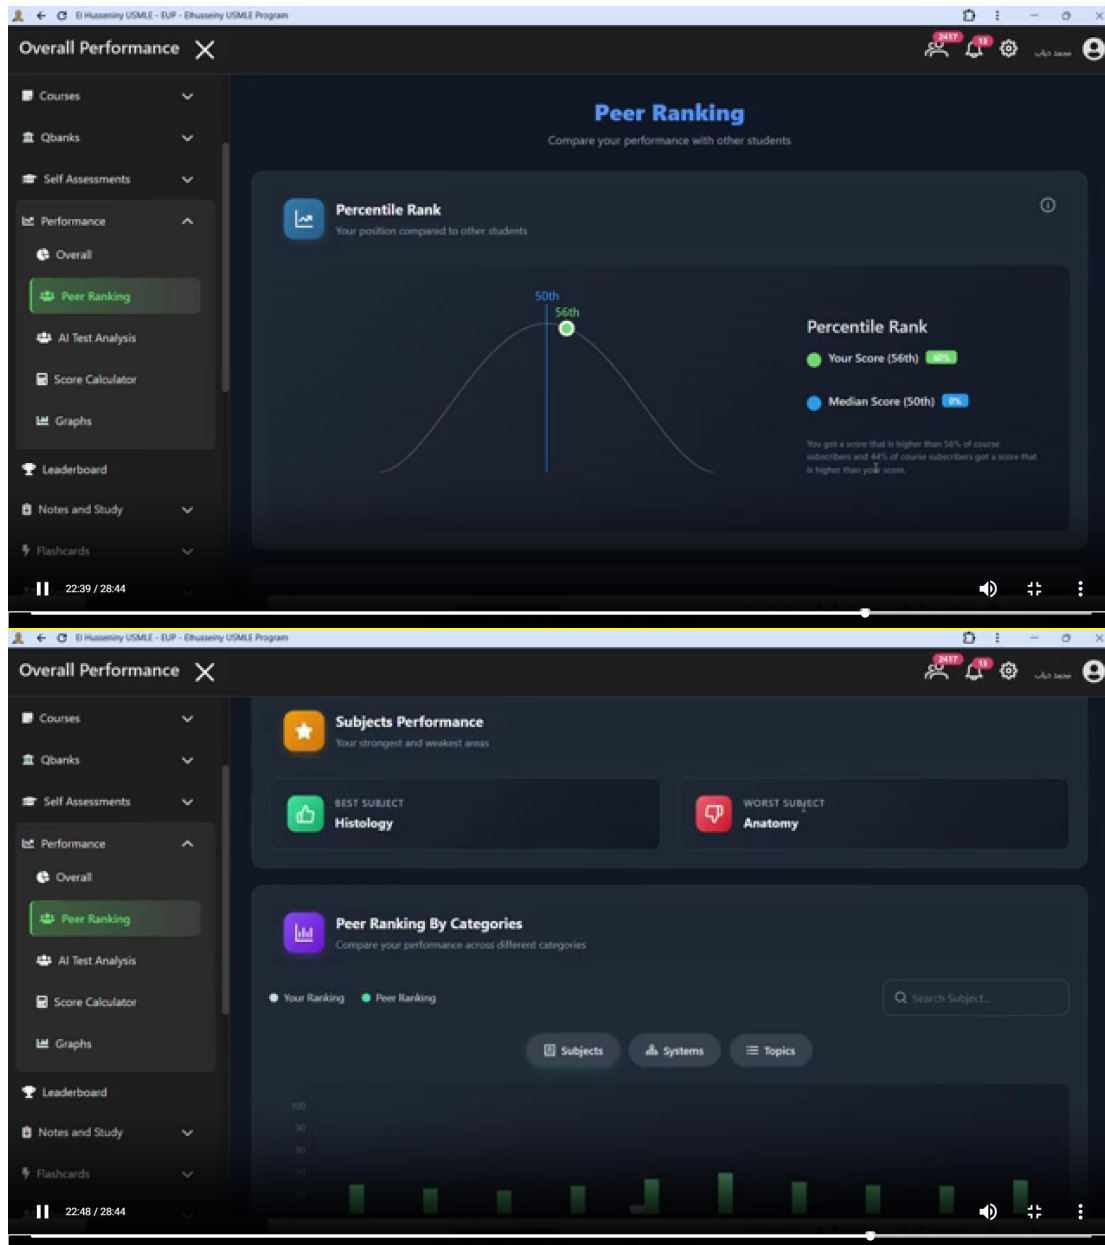

#	Feature	Description
1	Analysis Tab	Dedicated tab that provides detailed performance breakdown.
2	Subject	Table showing performance per subject (e.g.,

S e n t i v r a - Mohamed Diab Req.

#	Feature	Description
	Analysis Table	Histology, Anatomy) with columns: Total Questions, Correct, Incorrect, Omitted.
3	Chapter Analysis	Table showing performance per system or chapter (e.g., Gastrointestinal & Nutrition) with the same columns: Total Q, Correct, Incorrect, Omitted.
4	Lessons Analysis Table	Table showing performance per individual lesson/unit (to be implemented).
5	Expandable Rows	Each row in the tables has an arrow (>) to expand and show more detailed statistics.
6	Search by Subject	Search bar to quickly find a specific subject.
7	Search by System	Search bar to filter by system or chapter.
8	Performance Breakdown	Allows students to analyze their strengths and weaknesses across subjects, systems, and lessons.

Performance: peer ranking

S e n t i v r a - Mohamed Diab Req.

S e n t i v r a - Mohamed Diab Req.

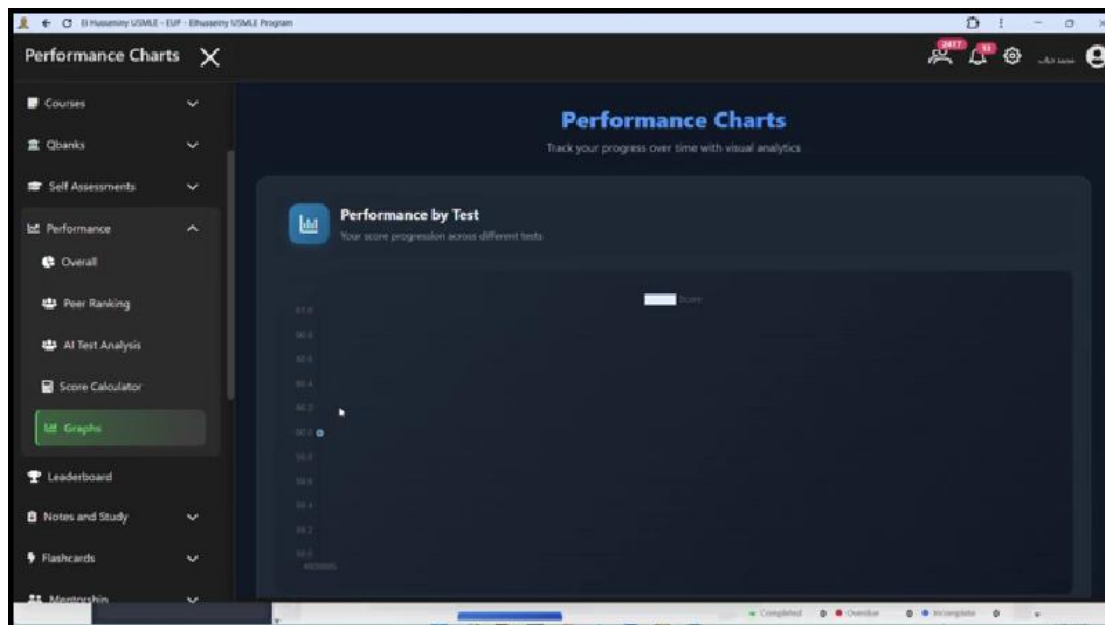

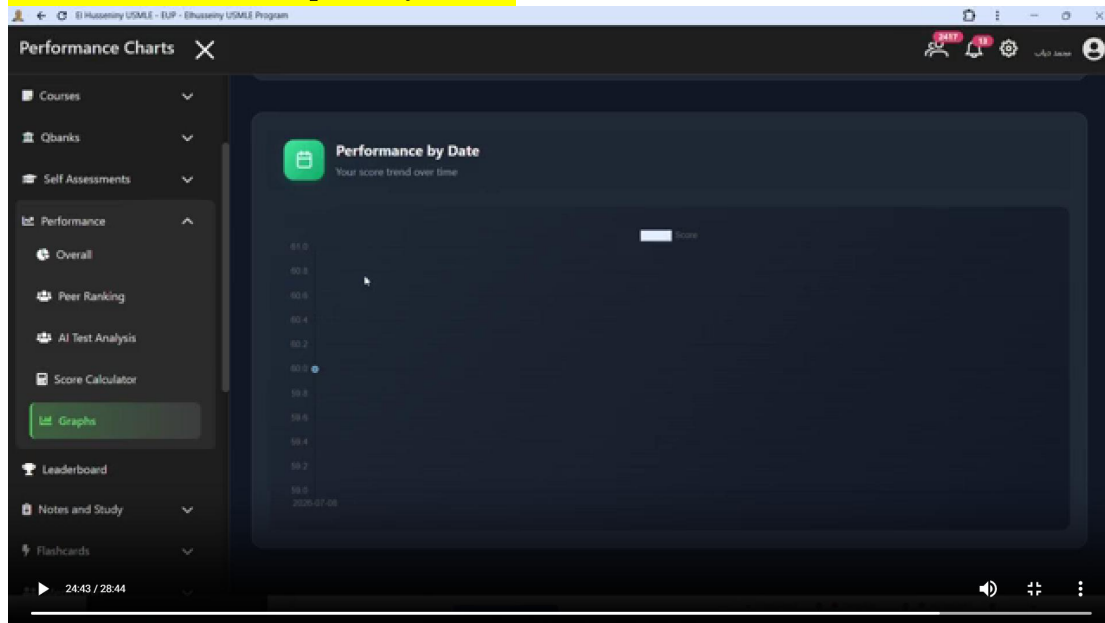

#	Feature	Description
1	Peer Ranking Section	Allows students to compare their performance with other students on the platform.
2	Percentile Rank	Shows the student's percentile rank (e.g., 56th percentile) compared to all users with a bell curve graph.
3	Performance Comparison Chart	Bar chart comparing "Your Ranking" vs "Peer Ranking" across Subjects, Systems, and Topics.
4	View by Categories	Tabs to switch between Subjects, Systems, and Topics for detailed comparison.
5	Best Subject	Highlights the student's strongest subject (e.g., Histology).
6	Worst Subject	Highlights the student's weakest subject (e.g., Anatomy).
7	Peer Ranking by Categories	Detailed bar chart breakdown showing performance ranking in different categories.
8	Search Filter	Search bar to find specific subjects or topics.

S e n t i v r a - Mohamed Diab Req.

#	Feature	Description
9	Performance Insight	Helps students understand their position relative to peers and identify areas for improvement.

Performance: Graphs by date

#	Feature	Description
1	Performance Charts Section	Dedicated area for visual charts and performance trends.
2	Performance by Date	Line chart showing performance trend day by day or over specific time periods (e.g., weekly).

S e n t i v r a - Mohamed Diab Req.

#	Feature	Description
3	Performance by Test	Chart or list showing performance test by test (each individual test result over time).
4	Accuracy Tracking	Both charts are based on Accuracy % = (Correct Answers / Answered Questions) $\times$ 100.
5	Trend Analysis	Helps students see if their accuracy is improving, declining, or stable over time.
6	Date / Test Filter	Ability to filter by date range or select specific tests.
7	Progress Insight	Provides clear visual feedback on long-term development and consistency.

User Roles & Permissions :

1. Admin

Category	Permissions
User Management	- View all users (Students, Parents, Companies/Partners) - Search and filter table - Access full profile of any user
Student Data	- View complete student profile (Personal info, payments, subscribed subjects) - Access full Performance dashboard of any student
Parents Management	- View all registered parents - See linked students for each parent
Companies / Partners	- View all partner companies - Create new company accounts (Email + Password) - Edit company details and profit percentage - View number of students, total payments, and revenue share
Content Management	- Add / Edit / Delete Subjects, Chapters, Lessons - Upload videos (at Lesson level only) - Upload PDFs to generate questions (Subject, Chapter, Lesson, Part level)
Pricing & Payments	- Set price for each Chapter separately - Create discount coupons (Code + Percentage + Expiry) - Set time-limited discounts on specific subjects
Reports	- Export subscribers data to Excel automatically - View payment and revenue reports

S e n t i v r a - Mohamed Diab Req.

Category	Permissions
Access	- Dedicated Admin login link - Full control over the platform

2. Student

Category	Permissions
Registration	Register with personal details (Name, Phone, Grade, Governorate, Center, National ID)
Dashboard	Full access to Performance pages (Overall, Peer Ranking, Leaderboard, Graphs, etc.)
Learning	Access subscribed subjects & chapters, watch lesson videos, solve Qbank questions
Tests	Take timed or tutor-mode tests, view previous tests and answers
Progress Tracking	View Accuracy Trends (By Date & By Test), Smart Score, and Percentile Rank

3. Parent

Category	Permissions
Registration	Register using Child' s National ID + own Phone Number + Relationship (Father/Mother/Brother/etc.)
Student Monitoring	View the linked student' s full Performance and progress reports
Subscriptions	View subscribed chapters and payment history for their child
Access	Separate account to follow up on their child' s performance

4. Company / Partner

Category	Permissions
Account	Account created by Admin (Email + Password)
Dashboard	View company name, responsible subjects, and number of registered students
Reports	View total payments and profit share percentage
Access	Dedicated link to monitor students coming through their network

S e n t i v r a - Mohamed Diab Req.
